Re: Lower Bear River Distribution System
Account: 24-139

Dear Mr. Munk:

River Commissioner, Terry Gnehm informed us yesterday, you are handling the distribution account for Reese Clark Pump & Irrigation Company. The above referenced account is past due as of June, 1994.

The distribution system is regulated by the State Engineer under authority of Section 73-5-1, Utah Code Annotated, 1953, as amended to insure orderly distribution of water based on water rights. A budget is set and assessments are made each year to meet the expenses of the distribution system including the commissioner's salary. The budget and assessments are set by the water users at the annual distribution meeting with the State Engineer. If assessments are not paid by June 1st, a delinquent penalty of 10 % is added.

We are enclosing a copy of the 1994 assessment notice so payment can be made this year. Otherwise the amount due will be carried over as a delinquent amount on the 1995 assessments. Those assessments will probably be mailed out between February and April.

If you have any questions concerning this matter, please contact me at 538-7381.

Sincerely,

Bonnie D. Duncan
